

AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions, and listings, of claims in the application:

1-39. (canceled)

40. (new) A composition comprising one or more carotenoids, and one or more of the following substances: vitamins, minerals, amino acids, lipids, peptides, nucleotides and/or polysaccharides.

41. (new) A composition as claimed in claim 40, further comprising an aqueous diluent, wherein the composition is in the liquid state.

42. (new) A composition as claimed in claim 40, wherein one or more of the components of the composition are water soluble.

43. (new) A composition as claimed in claim 40, wherein one or more of the components of the composition is/are fat soluble.

44. (new) A composition as claimed claim 41, wherein the fat soluble components are in the form of micelles.

45. (new) A composition as claimed in claim 40, wherein the composition comprises one or more water soluble vitamins and one or more fat soluble vitamins.

46. (new) A composition as claimed in claim 40, wherein the composition comprises one or more water soluble carotinoids and one or more fat soluble carotinoids.

47. (new) A composition as claimed in claim 40, wherein the composition comprises one or more water soluble amino acids and one or more fat soluble amino acids.

GEACH
U.S. National Phase of PCT/GB2003/003553

48. (new) A composition as claimed in claim 40, wherein the composition comprises one or more water soluble minerals and one or more fat soluble minerals.

49. (new) A composition as claimed in claim 40, wherein the composition comprises one or more water soluble peptides and one or more fat soluble peptides.

50. (new) A composition as claimed in claim 40, wherein the composition comprises one or more water soluble nucleic acids and one or more fat soluble nucleic acids.

51. (new) A composition as claimed in claim 40, wherein the composition comprises an oil.

52. (new) A composition as claimed in claim 40, wherein the composition comprises water soluble 1, 3 β -glucan or 1,6 β -glucan.

53. (new) A composition as claimed in claim 40, further comprising cellulose, gum and or a sugar derivative.

54. (new) A composition as claimed in claim 40, further comprising an emulsifier, preferably Polysorbate 80.

55. (new) A composition as claimed in claim 40, further comprising a stabilising agent, preferably monopropylene glycol.

56. (new) A composition as claimed in claim 40, further comprising a preservative, preferably phosphoric acid and/or potassium sorbate.

57. (new) A composition as claimed in claim 40, further comprising an antioxidant other than a carotenoid, preferably ascorbyl polyphosphate and/or butylated hydroxy-toluene.

58. (new) A composition as claimed in claim 40, wherein the inclusion of one or more carotenoid is optional.

GEACH
U.S. National Phase of PCT/GB2003/003553

59. (new) A composition for enriching the diet of a captive species, wherein the composition is as claimed in claim 40.

60. (new) A composition as claimed in claim 59, wherein the captive species are fish, preferably farmed fish, ornamental fish, or aquarium fish.

61. (new) A composition as claimed in claim 59, wherein the composition is incorporated in feed.

62. (new) A method for the enrichment of feed, comprising soaking the feed in a composition as claimed in claim 40.

63. (new) A method as claimed in claim 62, wherein the feed is defrosting or defrosted.

64. (new) A method as claimed in claim 62, wherein the feed is soaked in the composition prior to freezing.

65. (new) A method for the enrichment of feed, comprising spraying the feed with a composition as claimed in claim 40.

66. (new) A method for the enrichment of feed, comprising the addition of the composition as claimed in claim 40 before or during the production of processed feed.

67. (new) A method for enrichment of feed, comprising the injection of the composition as claimed in claim 40 into the feed.

68. (new) A method for enrichment of feed, comprising adding the composition as claimed in claim 40 to the environment or diet of live feed.

69. (new) A feed comprising a composition as claimed in claim 40.
